- Highly skilled in designing, testing, and developing software
- Thorough understanding of data structures and algorithms
- Knowledgeable of back-end development best practices
- Hands-on software troubleshooting experience

I've attached a copy of my resume that details my projects and experience in software development. I can be reached anytime at 774-283-1992 or via email at [brandonshnewalden@me.com](mailto:brandonshnewalden@me.com).

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,
